2020-2021	XII	CBSE	69.3%
2018-2019	X	CBSE	73%

Technical Proficiency / Skills	
	• DSA IN JAVA
	• DOCKER, JENKINS, GITHUB/GIT
	• HTML/CSS, JAVASCRIPT, MYSQL AND PHP

Internship

NGO: ISHAN FOUNDATION

JUNE 2022 – JULY 2022

- TEAM MEMBER
- AWARNESS ABOUT THE AGANWADI IN VILLAGE AND THE BENEFITS WHICH THEY CAN GET FROM IT

COMPANY: INTRAINZ INDIA,DELHI

1   JULY 2023 - 1 SEPTEMBER 2023

CLOUD COMPUTING TRAINING AND INTERNSHIP

● Student Attendance Management System ● By the use of Html/CSS

Java Script and MySql, PHP it has been made.

PROJECTS

MINOR PROJECTS

- **DEPLOYMENT OF AN STATIC WEBSITE USING CONTAINERISATION**

  Using Nginx image from Docker Hub and hosting a static website. Scaling the docker container with Kubernetes. Monitoring Kubernetes with Prometheus and Grafan.

- **STUDENT ATTENDANCE MANAGEMENT SYSTEM**
  By the use of Html/Css, Java script, MySql and php,it has been made. Anyone can easily track and maintain the attendance in it and it is user friendly

- **PORTFOLIO**
  With the use of Html/Css and Java script I made this project

- **MOVIES AND WEBSERIES HUNT**
  With help of HTML/CSS And Java Script this website in been made, it is user friendly and easily accessible, users can easily find the movies and series according to their interest, it has divided into genre through which user can easily select the genre as per their interest and check the details of the movies and for fetching all the data we use TMDB website and access key through which it automatically fetch and update the data on the daily basis and after that we are going to add the streaming platform also.

- **TOURS AND TRAVEL MANAGEMENT SYSTEM**
  It is an application designed to streamline travel planning, booking, and management. Built on a robust Java-based platform, the system offers a user-friendly interface for individual travelers, tourists, business travelers, families, and international visitors. Leveraging GitHub for version control and MySQL. for backend support, the system ensures efficient data handling. Also we made the CI/CD pipeline and monitor the application with the Grafana loki and promtail, also for testing we used TestNG framework and write the test cases and implemented it.

MAJOR PROJECTS

- **PROFESSOR SCHEDULER WEBSITE**
  Currently started working on the project which is a website for the students and the professors through this website students can book the free slots of the professors for any type of meeting without any calls or messages they just need to check the free slots in our website and book it. This is going to be made with help of HTML,CSS,JAVASCRIPT,MONGODB and API
